*"Most stories are never told due to their danger and confidentiality...but because of you, they're real rescues."
-Becky McDonald*

Women At Risk, International's (WAR, Int'l) 911 Rescue Fund

Our 911 Rescue Fund is weekly responding to emergency calls of varying urgency from across the nation and globe. At this very moment, vulnerable individuals are seeking out WAR, Int'l to rescue and make a way for them.

This Fund grew out of a partner's request in the dead of night to rescue a baby who had been sold to Thai traffickers for \$200. Our president was shocked they had to ask for the funding to rescue! We want our partners to be empowered to immediately intervene—not wait for the funding needed to save a life.

This fund is vital as it allows WAR, Int'l and its partners to rush to the aid of those in imminent danger. We rely on this fund when we get an emergency call from a frantic woman trying to escape her trafficker, when a desperate partner calls about a crisis situation, and when life-saving intervention is urgently needed. When circumstances call for immediate action, there is no time to ask for donations. The 911 Rescue Fund enables us to respond to urgent situations like these at a moment's notice.
